

Start-up License Request

National Aeronautics and Space Administration
Start-up License Request

NASA is interested in entering into nonexclusive licenses with start-up entities. The entity shall incorporate or is recently incorporated for the express purpose of commercializing the patents requested below. NASA requires prospective licensees to provide company information and technology commercialization plans to comply with the Federal Statute 35 USC §§ 207-209 and regulations set forth in 37 CFR § 404 and to ensure benefit to the U.S. economy. Based on the information provided, NASA will determine if a license can be granted to your company. The company information will be treated as “business sensitive” or “proprietary” and will be handled accordingly.

NASA Licensing Manager

Name:
E-mail:
Phone:

Note: This license application must be completed and submitted at one time. Partially completed applications cannot be saved. All fields are required. Please indicate “Not Applicable” if the question does not apply.

(a) Technology to be licensed

NASA Technology Title(s):
Patent Number(s) and Titles(s):

(b) Applicant Information

Company or Person Name:
Company Representative’s Full Name:
Company Address:
Phone:
Fax:
E-mail:
Place of Incorporation:
Parent Company Name and Address:

Small business under 37 CFR§404.3(c):	yes	no
Nature and Type of Applicant's Business, identify products or services which the applicant has successfully commercialized:		
Number of Employees:		
Licenses previously granted from federal agencies:		
Describe the extent to which similar technologies are being practiced and the commercial availability of such technologies:		

(c) Proposed Technology Use

What is the Proposed Product(s), Process(es) and/or services that you will be marketing or considering during the evaluation of the technology if it is licensed to you:
Market:
Market Size:

(d) Development and Marketing:

Provide a plan for development or marketing of the technology, or both. This plan should include:

(1) Statements of the time, nature and amount of anticipated investment of capital and other resources which applicant believes will be required to bring the invention to practical application (estimate date of first sale).

(2) Statements as to applicant's capability and intention to fulfill the plan, including information regarding design and development location, marketing, financial, and technical resources.

(3) Provide significant milestones like estimated date of first sale; sale increases; market expansion etc. (e.g., First sale - 3rd Qtr 2014; five sales - 2nd Qtr 2015). These milestones will be incorporated in the license agreement.

(4) Where do you intend to manufacture any products embodying the invention and geographic areas where applicant intends to use or sell the invention, or both.

(5) Describe how significant economic benefit will accrue to the U.S.

Provide three- to five-year projection of expenses and income as they relate to the technology to be licensed from NASA. The pro forma spreadsheet sample is included. Please add items under company projections, as needed. Please describe the unit of measure.

Projected Company Financials	Year 1	Year 2	Year 3	Year 4	Year 5
Revenue					
Price per Unit					
Units Sold					
Projected Sales	\$0	\$0	\$0	\$0	\$0
Expenses					
Cost of Goods Sold					
Selling, General & Admin. Expenses					
R&D Costs					
Total Expense	\$0	\$0	\$0	\$0	\$0

You may attach projection of expenses and income as a PDF file.

Please provide any other information which applicant believes will support a determination to grant the license to applicant.

The undersigned license applicant understands that the data provided herein is used by NASA as the basis to determine whether to approve the license agreement.
